12ø 1851 - Used block of 16

"12ø 1851 - used block - I believe the block of 16 - (4 x 4) with black grids is a far more desirable block than the Jessup 9H x 2V - block of 18. This was in a Morgenthau Sale of June 1923 - (Adutt Collection). I thought this went to Gibson. Do you know who owns it at present?"
