S.B.A. wrote Krug 9/30/46 as follows:

"Regarding the two 1¢ 1857 - IA copies. I only examined them under a glass, did not put them in tetro. I did make photos of both. I like the condition of Lot 18 better than Lot 19. I am not real sure that this stamp is perfect. I did not put it under my lamp. I didn't think that it was good enough for you as it could have had a pen cancel - The present cancel is not too satisfactory. In other words, my advice is - don't bid, and this in spite of the fact that it is signed by Sloane.

Did you note the diagonal line above the head?

(over)

You can see it in the illustration. So far as the perfs are concerned this is a better copy than Lot 18, but Lot 18 is a better color. I think that #18 is worth about \$200.00, though it will probably bring more."
